

## Education

**HARAMAYA UNIVERSITY**

**Degree, Software Engineering.**

**Relevant Coursework:** [Programming, Data Structure and Algorithm, Web Development, Database Systems, Software Testing, Cloud Computing, Software Project Management]

**Haramaya, BSc**

**Graduation Date : July 2027**

**Sire High School**

Sire, Oromia

## Projects

**GameHub** - A cross-platform application (Web + React Native) for browsing and discovering games by genre, platform, and rating. Built using React, React Native, Tanstack Query, and Tailwind CSS.

**Bible App(1600+ languages)** - Developed a scripture reading app using React.js with offline reading mode, bookmarking, and responsive UI.

**Netflix Clone** - Built a movie streaming interface replicating Netflix UI using React.js, TMDB API integration, and Firebase authentication.

**Content Management System** - Created a CMS with user authentication, dashboard analytics, and database integration using Next.js, Prisma, and PostgreSQL.

Multiple academic and personal projects available on [GitHub](#)

## Skills & Interests

### Technical Skills

#### Frontend Development

React.js, Tanstack Router, Next.js, Tailwind CSS, ShadCN UI, Sass, CSS Modules, Redux, Zustand, Tanstack Query, Framer Motion, Radix UI, Lottie, Three.js, TypeScript, Vite, PNPM, ESLint, Prettier

#### Backend Development

Node.js, TypeScript, Express.js, NestJS, NextAPI, PostgreSQL, MySQL, Prisma, MongoDB, Mongoose, Drizzle, Firebase, REST

#### Mobile Development

React Native, Expo, React Navigation, Zustand, Tanstack Query, Expo Router

**Language:** English(Fluent), Afaan Oromoo (Native), Amharic

**Interests:** Coding, Playing Piano, Reading, Listening Songs, Travel
